Hungarian, English, German

Profile

Web developer with strong creative and analytical skills in building customized web pages. Previous positions concerned around customer service helped her to learn how to solve problems without supervising and yet improvising if needed. Confidently asserting her role and pursuing her goals in an analytical yet creative manner while upholding an open-minded, empathetic, and collaborative spirit.

Education History

CareerFoundry / Full-stack Web Developer Certificate
2021 – 2022

- Built two projects from scratch using the MVC pattern, REST and object-oriented programming
